

A wide-angle landscape photograph of a mountain range at sunset. The sky is filled with large, billowing clouds that are illuminated from below by the setting sun, creating a vibrant palette of orange, red, and yellow. The sun itself is a bright, glowing orb positioned just above the horizon line. The mountains in the foreground and middle ground are dark and rugged, with some rocky peaks and sparse, dry-looking vegetation. The overall mood is serene and majestic. The text is overlaid in the center of the image in a white, serif font.

POVERTY ALLEVIATION:
CHINA'S EXPERIENCE AND CONTRIBUTION

• As the world's largest developing country with 1.4 billion people, China had long been plagued by poverty at a scale and severity rarely seen in the world.

• Over the past seven decades, 850 million Chinese have been lifted out of poverty, accounting for over 70% of the world's poverty reduction.

- 
- Since the 18th CPC National Congress in 2012, China has fought a decisive battle against poverty that is unprecedented in scale and intensity.
 - In the past eight years, the 98.99 million rural people living below the current poverty line have shed off poverty.
 - China fulfilled its goal of eradicating absolute poverty in 2020 and met the target of the 2030 Agenda for Sustainable Development 10 years ahead of time.
